

# Gbenga Olotuah

## Front-End Web Developer

As a computer engineer and software developer, I have gained extensive experience in creating innovative solutions that push the boundaries of technology. With a strong background in coding and problem-solving, I thrive in challenging environments where I can leverage my skills to develop efficient and scalable software applications. I am passionate about staying up-to-date with the latest industry trends and technologies, constantly seeking opportunities to enhance my knowledge and skills.

## WORK EXPERIENCE

### Frontend Developer

OikusDat

09/2023 - 11/2024

Lagos, Nigeria

Professional Real Estate Data Company.

#### Achievements/Tasks

- Enhanced the performance of client-facing web applications by optimizing code and reducing page load time by 30%.
- Ensured mobile-first design principles, making the platform accessible across various devices, leading to a 20% increase in mobile user retention.
- Integrated dynamic real estate APIs to display up-to-date market data, improving data accuracy and reliability by 40%.
- Worked closely with the design team to revamp the UI/UX of key platform features, boosting overall user satisfaction by 15%.
- Developed a fast, real-time property search feature using React.js, enabling users to filter and locate properties quickly.
- Maintained clean, scalable, and reusable code, adhering to industry best practices and conducting regular code reviews to improve team efficiency.

### Software Engineer

Lotbox

06/2023 - 12/2023

Port Harcourt

A Real-time 3D Rendering And Cross-platform Game Engine Based On WebGL.

#### Achievements/Tasks

- I worked closely with the development team to create visually appealing and responsive websites.
- I collaborated with designers to translate wireframes and mockups into functional web pages.
- I tested and optimize websites to ensure they function properly across different browsers and devices.
- Created reusable React.js components to streamline development workflows and improve code consistency across the platform.
- Improved the performance of rendering large datasets by implementing virtualization techniques, reducing latency by 40%.
- Worked on front-end integration of APIs to display and update real-time data from multiple sources, ensuring accurate and up-to-date information.

## SKILLS

Python

JavaScript

React.Js

Html

Css

Sql

Git

## CERTIFICATES

The Complete Python Bootcamp: From Zero to Hero in Python (09/2023 - 04/2024)

Certified JavaScript Algorithms and Data Structures by free code Camp  
(04/2023 - 07/2023)

Certified Web development, zero to mastery  
Andrei Neagoie, Udemy (02/2019 - 08/2022)

## LANGUAGES

English

Full Professional Proficiency

French

Professional Working Proficiency

Korean

Limited Working Proficiency

## INTERESTS

Gaming, Coding, Swimming, Problem solving

## WORK EXPERIENCE

### Professional Development Internship Bootcamp

Codelabs

12/2022 - 05/2023

Lagos

#### Achievements/Tasks

- Gained hands-on experience in building dynamic web applications using React.js, Node.js, Express.js
- Mastered Git and GitHub workflows, enabling effective version control and seamless collaboration on projects.
- Resolved over 50 bugs and optimized application performance by 30% through efficient coding practices.
- Integrated RESTful APIs to connect the front-end with back-end systems, facilitating real-time data flow in applications.
- Participated in code reviews to ensure quality and adherence to coding standards.
- Worked on front-end integration of APIs to display and update real-time data from multiple sources, ensuring accurate and up-to-date information.
- Documented project workflows, coding standards, and API usage for future developers and stakeholders.

### Network Operations Engineer

MTN Nigeria

04/2019 - 03/2020

Port - Harcourt, Nigeria

Tele communications Company.

#### Achievements/Tasks

- Monitored and maintained network and software components according to established guidelines and best practices.
- I performed regular network maintenance tasks, including upgrading hardware and software, applying patches, and implementing network enhancements.
- Consistently achieved a 99.5% SLA compliance rate for incident resolution and service restoration.
- Streamlined incident response workflows, reducing average resolution time by 25%.
- Proactively monitored network operations and performance to identify and resolve issues, minimizing downtime and ensuring 99.9% network availability.
- Diagnosed, escalated, and resolved network-related incidents within defined SLAs to maintain seamless communication services.

## EDUCATION

### Computer Engineering (second class upper)

Federal University Of Technology, Akure.

11/2021 - 03/2023

Akure

#### Project

- Built a student tracking website using HTML, CSS, Javascript, Git, Mysql
